Hawaii County needs working transfer stations with recycling of plastic and paper. They need to properly staff them. They need to properly maintain them. Ocean View Transfer Station needs to be open at least three days per week. The County needs to get creative with trash to energy programs. Compactors should be used for recycled materials.

County beach facilities need to be better maintained. Kahaluu Beach needs a new roof on the main building and has another building that needs to be removed.

The County should not be using herbicides anywhere.

The County should stock replacement pumps for the water system and should operate pumps in pairs that can be run on an alternating schedule.

**** REMINDER ****

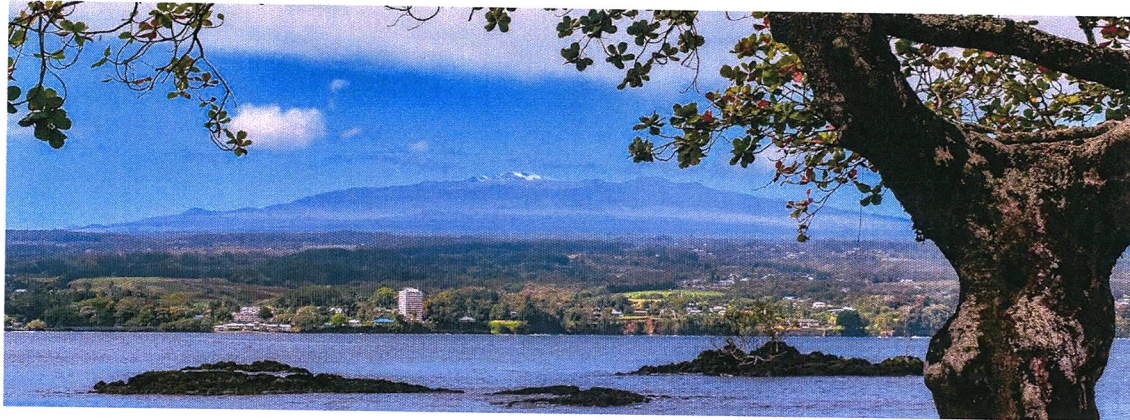

HILO

DRAFT GENERAL PLAN

TOPIC WORKSHOPS

INFRASTRUCTURE &

NATURAL RESOURCES

Members of the Long Range Planning Division will provide an overview of the Draft General Plan and deliver brief presentations on key sections of the plan. Attendees will participate in workshops to explore focused sections of the draft on infrastructure and natural resources.

During the workshop attending members of the public will have an opportunity for questions, discussion, and providing feedback on the sections of the draft being presented.
