Message: I think this would be a great plan. There are too many locals who want to restrict access of the whole island to everyone! I understand that we must protect and preserve, but we should also be able to appreciate the beauty of the world around us. Putting in a better road and lookout so it is actually safe for people to do what they are doing anyways, and bring more revenue to small towns in the north is a good idea. I support moving our island forward always, instead of backwards.
