These attorneys' qualifications and experience are described in the enclosed Public Finance Practice Group brochure and attorney resumes.
- 4. Recent projects and references.** As a group, our public finance attorneys have extensive experience in handling a wide variety of state and local bond financing transactions, including traditional infrastructure financings (e.g., financings for public buildings, streets, schools and water and sewer facilities), housing transactions, health care financings and college and university financings. This experience includes a significant number of major financing transactions, both on the mainland and here in Hawai'i. Serving their clients in a variety of key roles, including, without limitation, the role of bond or underwriters' counsel, our public finance attorneys have been

This experience included fixed and variable rate issues, credit enhanced transactions (e.g., letters of credit, bond insurance, federal mortgage insurance), new investment products (e.g., securitized bond pools, composite offerings, bonds coupled with derivative products), refundings and new money issues, and workouts of troubled financings.
