Hilo, Hawai'i 96720

SUBJECT: Munekiyo Hiraga Expression of Interest – Response to Notice to Providers of Professional Services for Fiscal Year 2023-2024

Dear Ms. Kunz:

In response to the County's Notice to Providers of Professional Services for the fiscal year 2023-2024, we are submitting for your consideration our enclosed Form 120 and Qualifications Documentation for Munekiyo Hiraga, company brochure, as well as a list of five (5) references.

Pursuant to the Notice, this letter serves as our expression of interest to be considered for the following category of service:

- OH.4) Community Planning (Environmental Assessment)
- OH.5) Community Planning (Community Engagement, Strategic Planning)

Since its founding in 1989, Munekiyo Hiraga has provided professional services in community planning, governmental affairs, and community engagement for a broad range of clients in the State of Hawai'i. Munekiyo Hiraga began as a very small company and has grown to now employing, on average, approximately 18 to 20 people between its Maui and O'ahu offices in the last five (5) years.

Susan Kunz, Administrator
June 16, 2023
Page 2

Please do not hesitate to contact me at (808) 244-2015 or by email at planning@munekiyohiraga.com if you have any questions. We appreciate the opportunity to submit this letter of interest.

Very truly yours,

A handwritten signature in black ink, appearing to read "Kari Luna Nunokawa". The signature is fluid and cursive, with a long horizontal stroke at the end.

Kari Luna Nunokawa, Ed.D.
Senior Manager

QUALIFICATIONS SUMMARY

I. QUALIFICATIONS SUMMARY

A. INTRODUCTION

Munekiyo Hiraga is a full service planning, government affairs, and community engagement consulting firm. The firm provides services statewide for a diverse client list which includes governmental agencies, landowners, small businesses, attorneys, architects, engineers, and non-profit organizations. The professionals and support staff of Munekiyo Hiraga have been working together as a team for over 30 years. Munekiyo Hiraga is a statewide firm, with project experience on every major island, and has offices in Wailuku, Maui and Honolulu, O'ahu.

Munekiyo Hiraga is a Minority-Owned, Woman-Owned, and Small Business Association Certified HUBZone firm. Through the Historically Underutilized Business Zones (HUBZone) Program of the Small Business Association, the firm has preferential access to Federal procurement opportunities.

B. MISSION STATEMENT "EXCELLENCE IN PROCESS MANAGEMENT"

Munekiyo Hiraga is dedicated and committed to providing responsive professional services of the highest quality to all clients. Quality in service by the Munekiyo Hiraga team is:

1. Timely

Consistently meeting clients' project time schedules through sound management and resource allocation practices. All projects shall be conducted to meet or better client deadline requirements. Where special scheduling needs are identified, fast-track timetables will be formulated and implemented.

2. Proactive

Emphasizing project pre-assessment to anticipate issues and concerns which may arise during the course of an assignment. Early assessment and identification of potential issues can translate into time savings during the course of project planning and implementation. In this regard, it is the firm's objective to conduct early consultation and coordination with client, agencies, and community stakeholders to ensure that issues are identified as early as practicable.

3. Strategic and Thorough

Implementing a philosophy that emphasizes diligent and strategically coordinated follow-up with the client, agencies and community stakeholders having a direct

interest in the project. By maintaining ongoing and responsive communication with clients and stakeholders involved in the project, the smooth and timely completion of assignment objectives can be facilitated.

C. PROFESSIONAL SERVICES PROVIDED

A broad range of consulting services is provided by Munekiyo Hiraga to meet the increasingly complex environment in which project development and public policy are implemented. In this regard, client services include, but are not limited to, the following areas:

- Government affairs, community engagement, and communications strategies
- Preparation of technical and feasibility studies, including economic and fiscal impact studies and benefit cost analysis
- Preparation of environmental assessments/environmental impact statements
- Application preparation and process coordination for land use, environmental and construction permits
- Preparation of land use/policy planning studies and development feasibility studies
- Due diligence and permit scoping analyses
- Geographic Information System (GIS) analysis and mapping

The staff of Munekiyo Hiraga has significant experience with governmental agencies and has an excellent understanding of governmental processes, policies, and protocols. In addition, Munekiyo Hiraga places significant value on civil discourse in community engagement activities. It is through establishing open relationships with agency representatives and community stakeholders that Munekiyo Hiraga is able to facilitate successful project processing.

D. OUR CORE VALUES

Gratitude As individuals and as a company, we are grateful to our clients, our partners in government and our partners in the community. In times of conflict and challenge, gratitude enhances our capacity to achieve harmony.

Selflessness Selflessness means sharing and giving, without expectation of reward. This mindset allows us to work in the context of “company” rather than as “individuals”. A selfless company will more easily coexist with partners in government and community.

Humility Humility cannot exist without selflessness. Humility is a mindset and behavior pattern where recognition of self is set aside in the interest of the company, and where the interest of the company is set aside for the interest of clients and community.

E. OUTCOMES SOUGHT FOR EACH ASSIGNMENT

Whether an assignment involves the preparation of a permit application or a technical study, the monitoring of proposed legislation, or the formulation of a community engagement program, Munekiyo Hiraga seeks outcomes which are designed to advance harmony among all project participants. In this regard, the following outcomes are emphasized in each assignment:

1. Mutually respectful working relationships among Client, governmental agencies, and community stakeholders; and
2. Managed expectations through a communication framework which is clear and characterized by trust.

Through successfully meeting project objectives for over 2,000 assignments over the course of 30 years, Munekiyo Hiraga has come to be recognized as a leader in environmental and regulatory processes, technical analysis, and governmental and community affairs.

F. QUALITY CONTROL AND QUALITY ASSURANCE PLAN

Munekiyo Hiraga has established a reputation for providing professional planning services based on sound technical and qualitative analysis, to yield strategically responsible responses and recommendations. Munekiyo Hiraga's approach to planning is based on respecting the intuitive insights of our clients, analyzing reliable technical and policy issues, and integrating both to provide the highest quality of service.

To ensure delivery of reports and applications of the highest caliber, Munekiyo Hiraga has instituted a quality control methodology which is iterative in nature and instituted at the start and throughout a project until completion.

Recognizing the importance of quality control and the desire to maintain a high level of professional integrity in documents produced by Munekiyo Hiraga, we firmly believe that quality is essential to a successful planning firm and key to our company principles. To integrate quality into our corporate values, we strive to naturally blend the following practices into every project:

- Accurate information gathering

- Continual communication with Client and project team
- Early consultation with applicable Federal, State, and County agencies as well as key community stakeholders
- Allowing for sufficient time to prepare required reports while meeting Client's timeline requirements
- Encouraging constructive review and comment and maintaining an open-door policy of in-house commentary
- Management's commitment to quality and professional standards of planning services
- Utilizing the most experienced and skilled personnel available
- Providing sufficient personnel to staff projects
- Continuing education and training of staff
- Maintaining quality of production and office facilities

These practices provide the foundation upon which Munekiyo Hiraga has built its quality control program. The program utilizes various internal controls, reviews, standardized procedures, and checklists.

Illustrative of this process, upon receipt of the Notice to Proceed, the Project Team is selected. Generally, the project team will consist of a Principal in Charge (PIC), a Manager, Senior Associate, or Associate, and an administrative support staff person. Prior to the start of production of the report/application document, the Project Team meets to review the project scope and background. Production tasks are assigned to members of the Project Team and a preliminary production timeline is established for the report/application. At each stage of production, the Project Team reviews the report/application and may seek input from other staff members who are not assigned to the project, but who have familiarity with the project area, project scope, and/or key issues related to the project for government agencies and/or community stakeholders. Additionally, Quality Control (QC) editors are assigned to the Project Team. The QC editors are Associates, Managers, or PICs who are not associated with the project. Documentation preparation and reviews, therefore, involve strict standards to ensure accuracy and quality.

Munekiyo Hiraga believes that its disciplined quality control process is essential to the production of quality documents for our Clients. We continually review our quality control review process to insure that the highest professional standards are met.

G. PRINCIPALS

1. Karlynn Fukuda, President

Ms. Fukuda has 29 years of public relations, governmental services and planning experience. As the public information officer for the County of Maui, she coordinated with all county departments and agencies for the preparation of press releases, media interviews and the planning and implementation of special projects. Ms. Fukuda has been involved in the preparation and processing of Chapter 343, Hawai'i Revised Statutes, Environmental Assessments, the processing of land entitlements and other governmental permits for landowners. She has managed the creation and execution of reports and brochures for County and State agencies, as well as private landowners. She has also been involved in community relations efforts for landowners, including facilitating meetings for community-based master planning and general project reviews.

Ms. Fukuda holds a Bachelor of Arts degree in Journalism and Mass Communication and a Bachelor of Science degree in Communications from the University of Colorado at Boulder, as well as a Master of Arts degree in Communication from Washington State University.

2. Mark Alexander Roy, AICP, LEED AP BD+C, Vice President

Mr. Roy has 23 years of professional experience, including training/facilitation, and providing planning and project management consulting services to governmental agencies, land trust organizations, as well as non-profit institutions and corporate clients. Mr. Roy has extensive experience in matters related to strategic planning, management of complex permitting initiatives, and preparation of environmental impact statements for major land use actions. Mr. Roy has advised large land trusts, private landowners, and State and County agencies in guiding projects through the regulatory and environmental review process.

Mr. Roy is a member of the American Institute of Certified Planners (AICP), the American Planning Association, Hawai'i Chapter and is a LEED Accredited Professional through the U.S. Green Building Council. He attended college for both undergraduate and post graduate studies in the United Kingdom and graduated with a Bachelor of Arts Degree in Environmental Management from the University of Leeds, and, a Master of Science in Environmental Protection from the University of Salford, Manchester.

3. Tessa Munekiyo Ng, AICP, Vice President

Ms. Ng has 17 years of professional planning experience, providing planning and project management consulting services, as well as fiscal and economic impact

analysis and market analysis to various private development companies, non-profit organizations, and government agencies. Ms. Ng has extensive experience in matters related to strategic planning, fiscal and economic analysis, preparation of regulatory permits, and community outreach for land use permitting actions. Ms. Ng has advised major landowners, government agencies and non-profit organizations through the environmental review and land use permitting process.

Ms. Ng is a member of the American Institute of Certified Planners (AICP), the American Planning Association (APA), Hawai'i Chapter, the Urban Land Institute (ULI), and Lambda Alpha International Honorary Society for the Advancement of Land Economics. She graduated with a Bachelor of Arts in Political Economy from Georgetown University in Washington D.C. and received a Master in City Planning from the University of California at Berkley.

4. Michael T. Munekiyo, AICP, Senior Advisor

Mr. Munekiyo has 49 years of professional planning experience, which includes positions with State and County governments, a private consulting firm and a corporate landowner. Mr. Munekiyo's experience touches upon a solid and broad base of planning programs and projects, ranging from the preparation of issue papers for the Hawai'i Coastal Zone Management Program and Hawai'i State Plan, and processing of regulatory permit applications and environmental impact statements for major infrastructure improvements. He has thorough knowledge of State and County planning processes and has a full understanding of County legislative processes.

Mr. Munekiyo holds a Bachelor of Science Degree in Civil Engineering from Colorado State University and a Master of Urban and Regional Planning Degree from the University of Hawai'i. He is a member of the American Institute of Certified Planners (AICP), American Planning Association, Hawai'i Chapter, and is a Registered Professional Engineer (State of Colorado).

Note: Services performed relate to environmental assessment preparation/processing and regulatory permit processing.

Explain firm’s individual project assignment, project management structure, project execution (work flow and responsibilities) and quality control process. In the event the spaces provided on this form are not sufficient for entries, or if you wish to furnish additional information, it may be inserted here or on separate sheets, with appropriate references.

Our approach to providing consulting services is based on analyzing individual project-specific considerations and reliable technical information, respecting the intuitive insights of our clients, and integrating both to provide the highest quality of service. We strive to:

- Consistently meet clients’ time schedules through sound management and resource allocation.
- Emphasize project pre-assessment to identify issues and concerns that may arise during the project. We find that early consultation and coordination with the client, agencies, and other project team members ensure that issues are, to the maximum extent possible, addressed upfront.
- Implement diligent and strategic follow-up at each stage of the project. By maintaining ongoing communication with the client and involved parties, a smooth and timely achievement of project objectives can be facilitated.

The firm’s project assignments are made after a review of the skills required for the project, as well as personnel availability. Each project team is composed of, at a minimum, a principal in charge, an associate and/or senior associate, and an administrative assistant. Work flow, project status, and milestones are monitored by the principal in charge. Munekiyo Hiraga utilizes a cloud-based project management system to track project tasks and schedules, coordination items, documentation, and key milestones. All project deliverables undergo a quality control review process, which involves review by the project team’s associate and/or senior associate and principal in charge, as well as review by a staff member not assigned to the project for third-party quality control review. The management structure and processes established at Munekiyo Hiraga allows for regular monitoring of work flow, creates accountability, and ensures timely performance.

Work at Munekiyo Hiraga is guided by the company’s three core values – Gratitude, Selflessness, and Humility. These core values define how we see ourselves as a company and drive the way we do business. Please refer to pages 1 to 3 of the Qualifications Summary in Part I of this document for more information.

As of this date June 16, 2023 the foregoing is a true statement of facts.

BROCHURE**

MUNEKIYO HIRAGA

Planning. Project Management. Sustainable Solutions.

ABOUT OUR COMPANY

WHO WE ARE

Munekiyohiraga (MH) is a full service planning, government affairs, and community engagement consulting firm. We provide services statewide for a diverse client list, which includes governmental agencies, landowners, small businesses, attorneys, architects, engineers, and non-profit organizations. MH is a Minority and Woman-Owned, Small Business Association Certified HUBZone Firm. Through the Historically Underutilized Business Zones (HUBZone) program of the Small Business Association, we have preferential access to federal procurement opportunities.

OUR CORE VALUES

1 Gratitude

As individuals and as a company, we are grateful to our clients, our partners in government, and our partners in the community. In times of conflict, gratitude enhances our capacity to achieve harmony.

2 Selflessness

Selflessness means sharing and giving, without expectation of reward. This mindset allows us to work in the context of “company” rather than as “individuals”. A selfless company will more easily coexist with partners in government and the community.

3 Humility

Humility cannot exist without selflessness. Humility is a mindset and behavior pattern where recognition of self is set aside in the interest of the company, and where the interest of the company is set aside for the interest of clients and the community.

These core values define how we see ourselves as a company and drive the way we do business. Simply put, it’s what’s important to us — not just on every project – but day to day, person to person. We believe that when values matter, good things follow. Our Core Values result in three important professional outcomes that we strive to achieve: **Integrity, Excellence, and Innovation.**

ACHIEVING EXCELLENCE AND QUALITY

MH is dedicated and committed to providing responsive professional and cost-effective services of the highest quality to all clients by:

- Meeting clients’ project time schedules through sound management and resource allocation practices.
- Emphasizing project pre-assessment to anticipate issues and concerns which may arise during the course of an assignment.
- Implementing a philosophy that emphasizes diligent and strategically-coordinated follow-ups with clients, agencies, and community stakeholders.

PROFESSIONAL SERVICES OFFERED

SERVICE

Environmental Review – Prepare environmental assessments and environmental impact statements under Chapter 343, Hawai'i Revised Statutes and the National Environmental Policy Act (NEPA).

Land Use Planning and Permitting – Assist clients with various Federal, State, and County permit processes to ensure project compliance with regulatory compliance. Examples of land use permitting include U.S. Department of Army Permits, State Section 401 Water Quality Certification Permits, Coastal Zone Management Consistency approvals, State District Boundary Amendments and Special Use Permits, State Conservation District Use Permits, County Community Plan Amendments, Change in Zoning, Conditional Permits, Planned Development and Project District Approvals, Special Use Permits, and Agricultural Assessments, Special Management Area Permits, and County Variances relating to Building Code, Subdivision Ordinance and Zoning Code.

Construction Permitting – Facilitate the building permit process to ensure that permits can be obtained in a timely manner.

NOTABLE PROJECTS AND MUNEKIYO HIRAGA'S ROLE

- **DLNR Industrial and Business Park, Pulehunui, Maui (State of Hawai'i, Department of Land and Natural Resources):** Prepared and processed a Chapter 343, HRS Environmental Impact Statement (EIS). Prepared an economic and fiscal impact report. Led community outreach efforts for a 280-acre industrial and business park on State-owned lands in Central Maui.
- **Makalapua Project District, Kailua-Kona, Hawai'i (Liliu'okalani Trust):** Prepared a Chapter 343, HRS Environmental Assessment (EA) for a proposed 65-acre mixed use, master planned community.
- **Solar Photovoltaic and Battery Storage installation at University of Hawai'i Campuses, O'ahu and Maui (University of Hawai'i Community Colleges):** Supported the installation of new solar PV and storage systems at campuses on Maui and O'ahu to achieve the University of Hawai'i system-wide goal of achieving net-zero status by January 2035. Processed various land use and environmental permits, including a Special Management Area (SMA) Use Permit for the University of Hawai'i Maui College from the Maui Planning Commission, a SMA Use Permit for the Kapi'olani Community College from the Honolulu City Council, and Plan Review Use Permit Amendments for Leeward Community College and Windward Community College.
- **Lāhainā Ferry Pier, Lāhainā, Maui (State of Hawai'i, Department of Land and Natural Resources):** Prepared and processed a Chapter 343, HRS EIS for a new ferry pier at the Lāhainā Small Boat Harbor to address increased demand for interisland ferry services, relieve congestion in the harbor, and improve efficiency of harbor operations. Assisted with various land use and regulatory permitting, including Section 106 National Historic Preservation Act and Section 7 Endangered Species Act consultation, Section 404 Department of Army Permitting, Section 401 Water Quality Certification, County Shoreline Setback Variance, and County Historic District Application.
- **Four Seasons Mānele Resort Rooms Renovation, Mānele, Lāna'i (Pūlama Lāna'i) –** Assisted with the SMA and Project District permitting and led coordination efforts on various building permits required for a major renovation to the Four Seasons Mānele Resort.
- **The Ritz-Carlton, Kapalua, Maui (BRE Hotels and Resorts) –** Assisted in SMA permitting and building permit application preparation and processing for a variety of renovation and revitalization projects at the Ritz-Carlton Kapalua.

PROFESSIONAL SERVICES OFFERED

SERVICE

Technical and Feasibility Studies – Conduct Geographic Information System (GIS) analysis, due diligence studies, fiscal and economic impact studies, agricultural impact analysis, market analysis, and other technical analysis to meet specific client needs and support project development decision-making.

Strategic Advising and Other Consulting Services – Provide a wide range of strategic advisory services, from development advisory services to assist clients in formulating a development program based on various regulatory considerations to defining and implementing a site selection methodology for potential new projects.

Community Engagement and Governmental Affairs – Facilitate open discussions to bring about positive outcomes, utilizing our long-standing familiarity with community engagement principles and local issues and stakeholders.

NOTABLE PROJECTS AND MUNEKIYO HIRAGA'S ROLE

- **County of Hawai'i (Re)development Feasibility Assessment (County of Hawai'i Department of Research and Development):** Prepared a (Re)development Feasibility Assessment to support and expand the County of Hawai'i's community and economic development initiatives. Work involved Geographic Information System (GIS) analysis, stakeholder outreach, and policy review.
- **Economic and Fiscal Impact Analysis for East Maui Water Lease (Alexander & Baldwin Inc. and East Maui Irrigation Company):** Prepared an Economic and Fiscal Impact Analysis that was included in the EIS for a new 30-year water lease from the Board of Land and Natural Resources to supply water through the East Maui Irrigation Aqueduct System to domestic and agricultural water users.
- **E. Kapolei Strategic Master Plan:** Chapter 343, Hawai'i Revised Statutes (HRS) Environmental Impact Statement (EIS) for 170 acres of State-owned land planned for mixed use TOD development, workforce housing, and light industrial uses in Kapolei, Oahu, Hawai'i.
- **Ha'ikū Fire Station Feasibility Study, Ha'ikū, Maui (County of Maui, Department of Fire & Public Safety):** Prepared a feasibility study of a proposed new fire station in the rural community of Ha'ikū to extend fire services to communities east of Pā'ia. Conducted high-level assessment of other potential sites beyond the Ha'ikū area, including community outreach.
- **Maui MPO Long-Range Transportation Plan (County of Maui, Maui Metropolitan Planning Organization):** Provided consulting services and implemented a robust community engagement strategy to obtain public input throughout the update of the Regional Federal-Aid Highways 2035 Transportation Plan for Maui MPO.
- **Hāna Highway Bridge Rehabilitation Project, Hāna, Maui (Federal Highway Administration):** Supported the project consultant team in implementing the public engagement program for the Hāna Highway Bridge Rehabilitation Project, which sought to rehabilitate and/or reconstruct existing bridges to meet current design standards while maintaining the historic and rural character of the bridges. Scope of work included facilitation of public informational meetings.

MUNEKIYO HIRAGA

Planning. Project Management. Sustainable Solutions.

OUR TEAM

PRINCIPALS

Karlynn Fukuda, *President*. Ms. Fukuda has over 25 years of public relations, governmental services, and planning experience. Ms. Fukuda has been involved in the preparation and processing of environmental review documents, land use entitlements, reports, and other governmental permits for landowners. She has also been involved in community relations efforts for landowners, including facilitating meetings for community-based master planning and general project reviews.

Tessa Munekiyo Ng, *AICP, Vice President*. Ms. Ng has over 15 years of professional planning experience, providing planning and project management consulting services as well as fiscal and economic impact analysis and market analysis to various private development companies, non-profit organizations, and government agencies. Ms. Ng has extensive experience in matters related to strategic planning, fiscal and economic analysis, environmental review and land use permitting processes, and community outreach.

Mark Alexander Roy, *AICP, LEED AP BD+C, Vice President*. Mr. Roy has over 20 years of professional planning experience, providing planning and project management consulting services to governmental agencies, land trust organizations, and landowners. Mr. Roy has extensive experience in matters related to strategic planning, management of complex permitting initiatives, preparation of environmental review documents, and the regulatory and environmental review process.

Michael T. Munekiyo, *AICP, Senior Advisor*. Mr. Munekiyo has over 45 years of professional planning experience, which includes positions with State and County governments, a private consulting firm and a corporate landowner. Mr. Munekiyo's experience touches upon a solid and broad base of planning programs and projects. He has thorough knowledge of State and County planning processes and has a full understanding of County legislative processes.
