

Running a business is like a 24/7 job. Dealing with the Federal Occupational Safety and Health Administration (OSHA) or the Hawaii OSHA (HIOSH) is probably not your favorite activity. Ever-changing standards do not make things easier.

Compliance Solution LLC can help you deal with OSHA or HIOSH in a timely and cost effective manner. Our professional services include:

- OSHA style walk-through surveys which can help you identify and correct hazards *before* an OSHA compliance officer arrives at your site.
- Custom-made written safety and health programs
- Customized employee training
- Case review for litigation, penalty negotiation
- Mold and Indoor Air Quality Investigation, and
- Monitoring for hazardous chemicals and noise.

Besides satisfying regulatory agencies' requirements, providing a safe and healthful work place makes business sense. Morale will stay high and productivity will go up. Fewer injuries translate into less down time, fewer defective products and an improved bottom line.

Manager

Mr. Archie Yu, MS, CIH, MBA, CSP was a HIOSH Compliance Officer for several years. He has experience in compliance issues, industrial hygiene surveys including lead paint, asbestos, and indoor air quality. He is a DOH certified lead risk assessor and project designer. He is an AHERA building inspector and contractor/supervisor. He is an OSHA authorized trainer for construction industry, as well as a certified safety consultant in Missouri Department of Labor & Industrial Relations. He was a safety manager for the Federal Emergency Management Agency (FEMA).

Dear Mr. Messina:

Letter of Interest – Industrial Hygiene

Compliance Solution LLC is pleased to submit our letter of interest for the Industrial Hygiene.

Compliance Solution, LLC was formed in 2001 to help employers comply with HIOSH regulations thru training, written programs and compliance audits. We also conduct monitoring for hazardous chemicals and noise. The average number of employee is two; additional employees may be brought in if necessary. We conduct asbestos inspections, industrial hygiene surveys, lead-based paint risk assessments as well as safety training.

Mr. Yu has years of experience in HIOSH compliance, industrial hygiene surveys including lead paint, asbestos, indoor air quality and process safety management. He is the only consultant with a **Certified Industrial Hygienist** and **Certified Safety Professional** qualification as well as HIOSH compliance experience in Hawaii. He is a DOH certified trainer for lead paint inspector, project designer, contractor/supervisor and risk assessor. He got his MS in Environmental Health Science from the University of Kansas, and an MBA from the University of Hawaii.

Some of our clients include:

1. Mr. Ken Nakamoto, project manager, Agribusiness Development Corporation, 235 South Beretania St., Honolulu- Monthly safety inspection and safety meeting. 808-586-0087
2. Mr Ryan Chong, Safety Office, Department of Human Resources, County of Hawaii. – indoor air quality study. 808-961-8215
3. Mr. Jon Nakashima, Operations Superintendent, Wastewater Management Division, Department of Public Works, County of Kauai. Safety training and program. 808-652-0982

Compliance Solution LLC

P.O. Box 235366, Honolulu, HI 96823
