

TEMPORARY MORGUE FACILITY

HILO, HAWAI'I

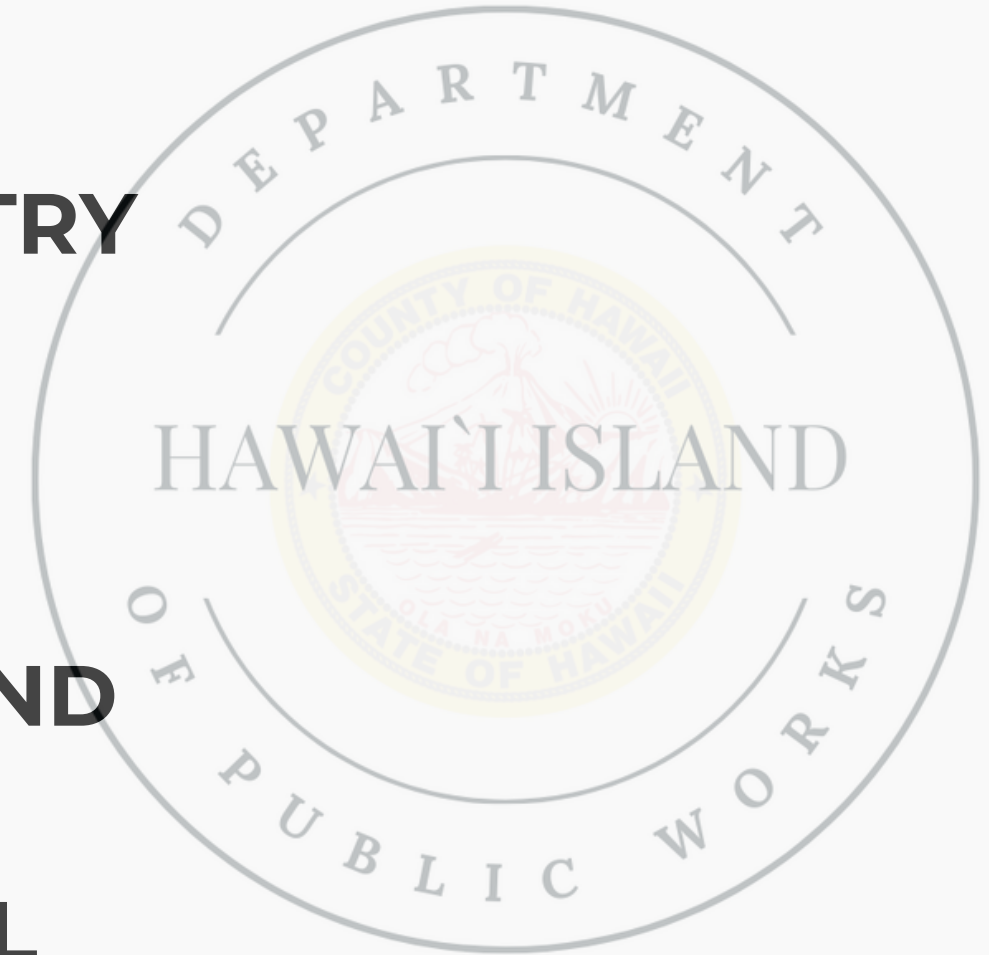

TEMPORARY MORGUE FACILITY

A new temporary cold storage facility is being constructed to hold decedents pending their release to a mortuary. The refrigeration system in the Hilo Benioff Medical Center's morgue facility is in need of replacement and compromises the ability to keep decedents. In addition, the morgue space at HBMC is needed to keep decedents who pass away within HBMC's setting and is not sufficient enough to also store decedents who pass away outside of HBMC's setting and are the responsibility of HPD.

Scope of Work

- **CONCRETE FOUNDATION FOR (2) 40' REFRIGERATED CONTAINERS PROVIDED BY THE HAWAI`I POLICE DEPARTMENT.**
- **MECHANICALLY VENTED ENCLOSED VESTIBULE FOR ENTRY INTO EACH REFRIGERATED CONTAINER.**
- **ROOF STRUCTURE OVER THE (2) REFRIGERATED CONTAINERS AND ENTRY VESTIBULES.**
- **ELECTRICAL BACKUP GENERATOR, SECURITY SYSTEM, AND TEMPERATURE ALERT SYSTEM.**
- **10' HIGH CMU (CONCRETE MASONRY UNIT) SCREEN WALL WITH ACOUSTIC BARRIER ON THE INTERIOR FACE.**
- **10' HIGH GATED DRIVEWAY ENTRY**
- **LANDSCAPING TREES AND GROUND COVER TO SCREEN CMU WALL.**

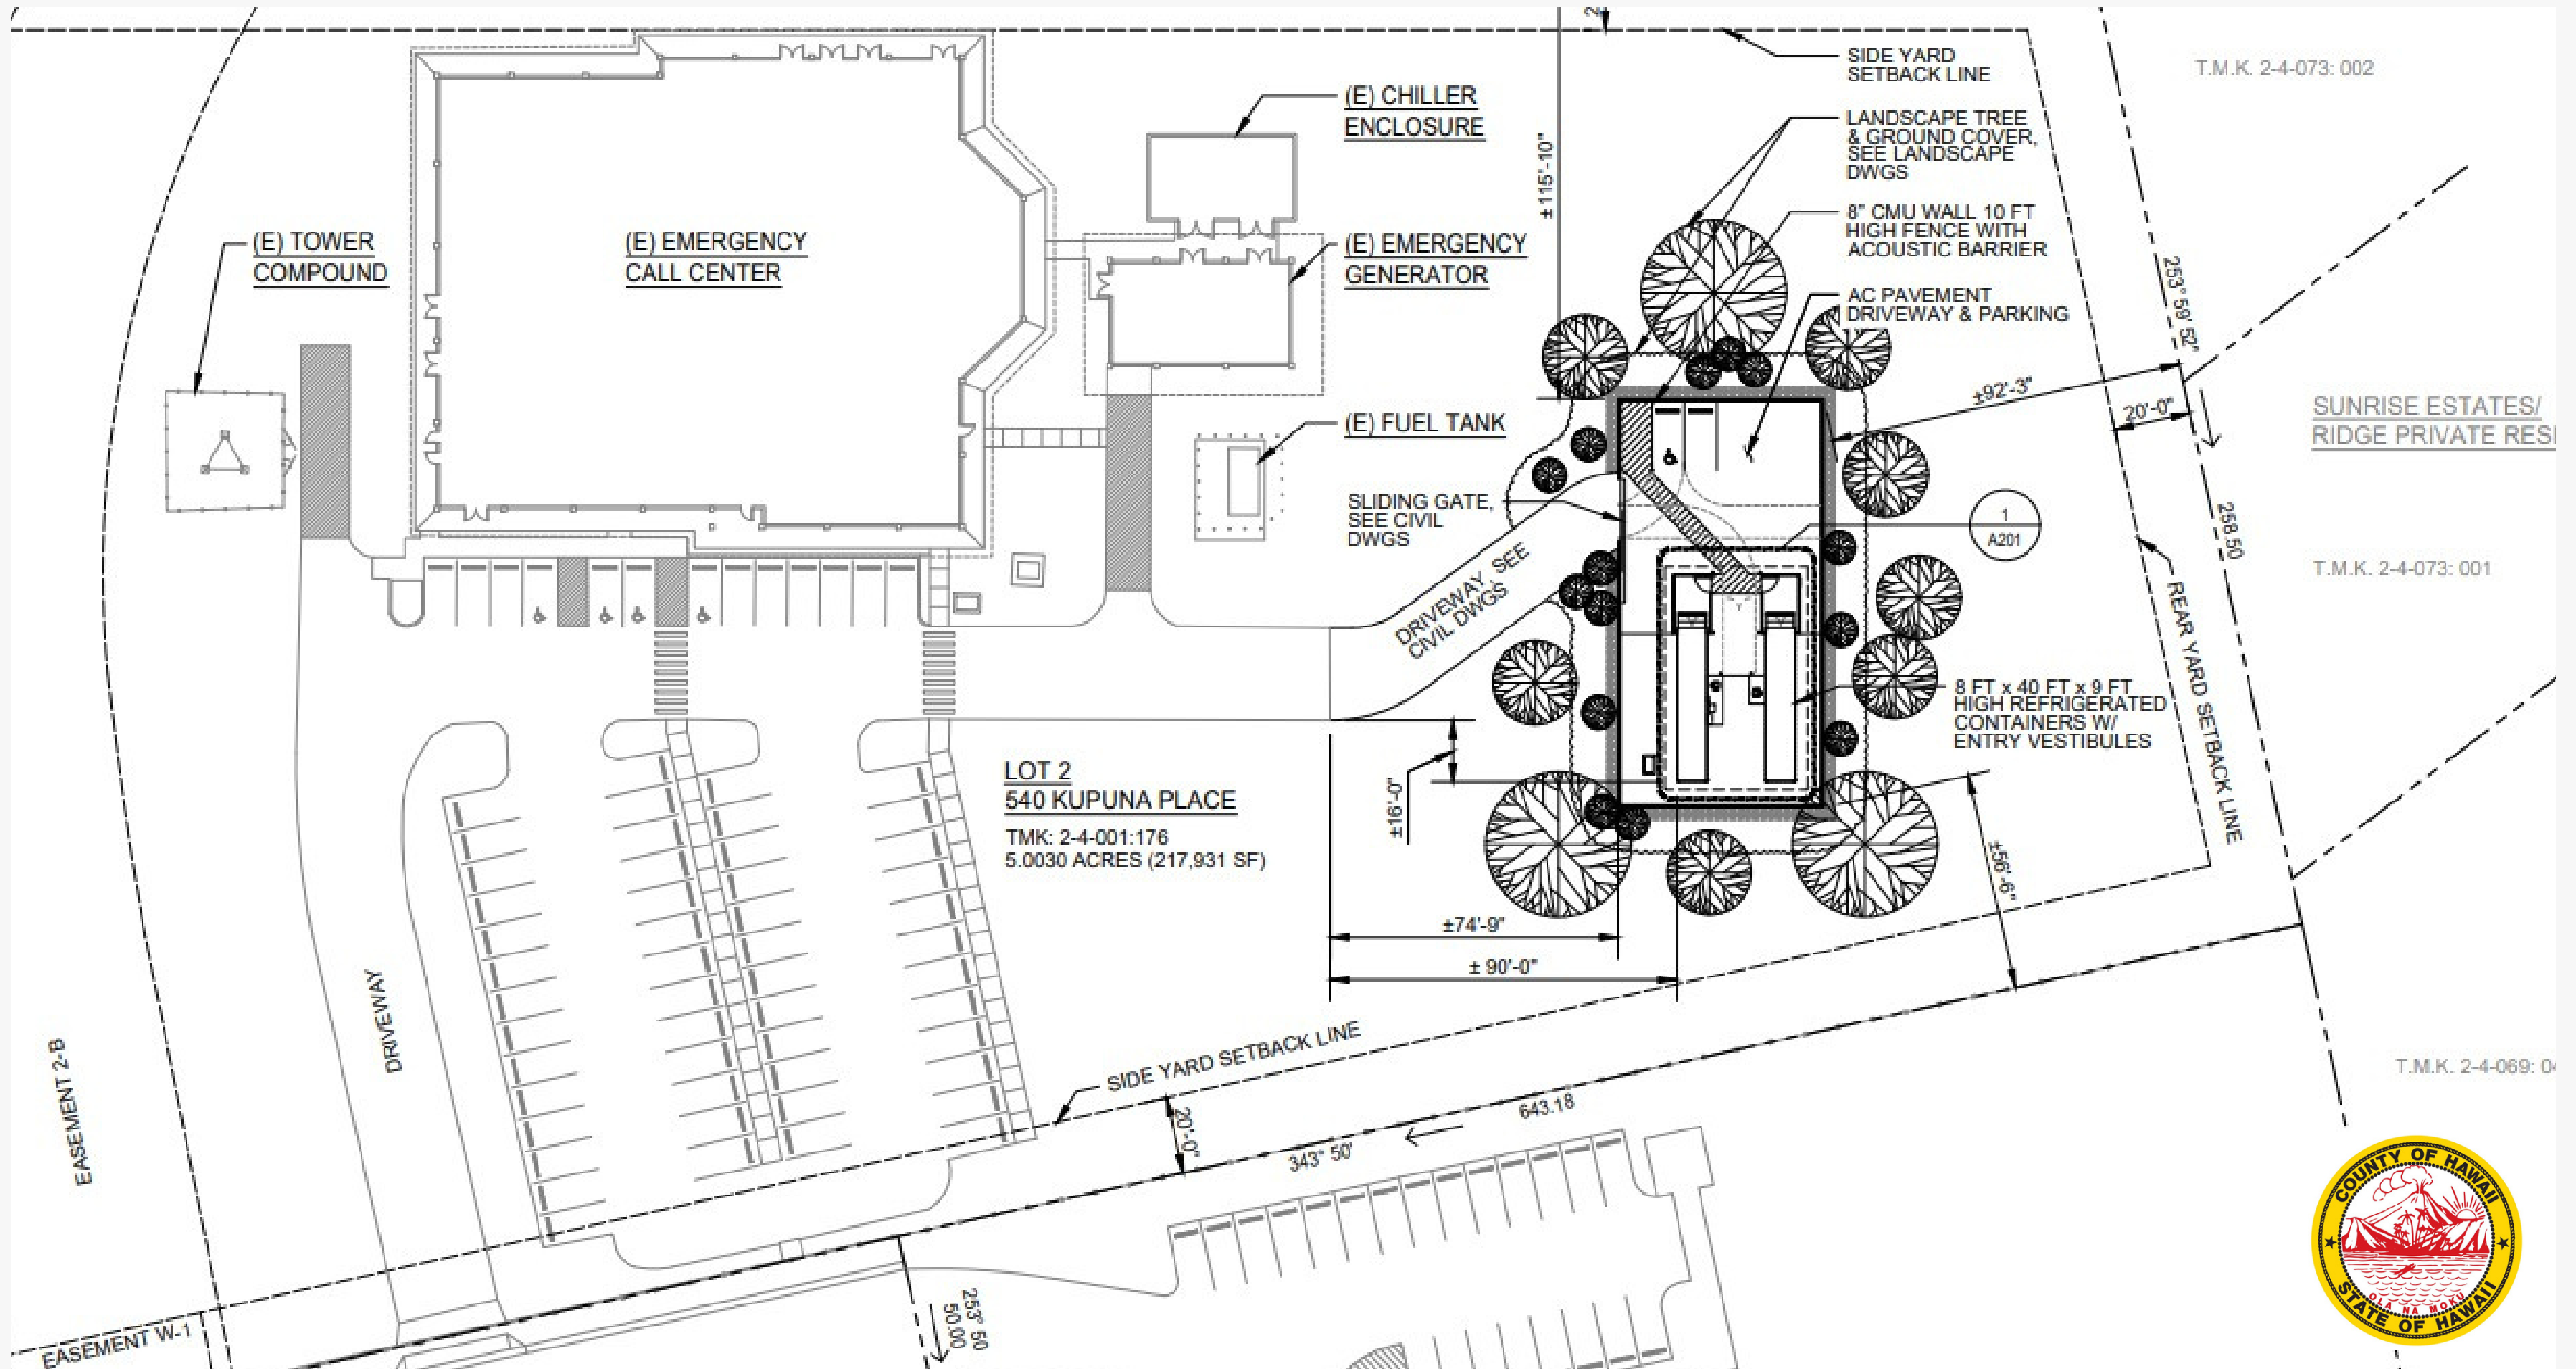

LOCATION

**Mohouli
Street and
Kupuna
Place**

Hilo, HI

COLD STORAGE FACILITY PLANS

The background of the image features a large, faint, circular seal of the State of Hawaii. The seal contains a central emblem with a sun rising over mountains and a ship, surrounded by the words "STATE OF HAWAII" and "OLA NA MOKU".
