Subject: Reschedule GP meeting in January. Mahalo
Date: Thursday, December 19, 2024 9:19:07 AM

Aloha. Please reschedule GP meeting in January. Mahalo

STOP GP from going to County Council until further investigation on...

- "Climate Change" the foundation of the **entire plan**
- Turning private land into recreation, **dropping property value**, and the right of the State to do so. (No local would want that.)
- The **Safety** of electric vehicles on the island, the problem with recycling the lithium batteries which are a **hazard waste**, and the increased expense to locals electricity bills! (The current electric grid **can't handle more!**)
- Taking **most of the island** and giving it to the State under the guise of "Conservation", "Natural" and "Rural"
