Aloha kakahiaka kākou

I hereby implore you - please do take the time to read & study the document

Vote against that whole Plan, vote to scratch it and start anew with better counsel

Ask the kupuna counsel !

Then present it up the residents for comment!

As is , just a few points of concern:

Points of Note:

Land Use Titles changing Residential to Recreation DROPS property value.

This is without due process and should be criminal

The plan could set up MANY opportunities for the State to take your land & Rezone

The plan could regulate OFF-GRID living

The plan will further STRESS the electric grid by increasing prices.

They want to create a Smart Grid and Broadband infrastructure that will dig up roads to lay WIFI cable underground that will be on all the time and wreak havoc on traffic.

Most of the Big Island will change to Conservation land (only a park can be on it) or Natural land (no people, buildings, or farming).

How will Hawaii Homelands give land back to Hawaiians?

Please do read attached PDF for further food for thoughts - and vote unfavorable

Mahalo,

Fred

Hilo
