Mr. Benson Medina
Director of Research & Development
County of Hawaii
25 Aupuni Street, Suite 1301
Hilo, HI 96720

**Re: APPLICATION FOR County of Hawaii Providers of Professional Services 2025-2026 SUBMITTED
ELECTRONICALLY: chresdev@hawaiicounty.gov**

Dear Mr. Bendon:

NEC Corporation of America is pleased to submit this application to the County of Hawaii, regarding the Notice to Providers of Professional Services 2025-2026, categories as follows:

- **RD. 15) Operation Research**

NEC Corporation of America is a subsidiary of NEC Corporation, a \$25 billion organization established in 1899 and based in Tokyo, Japan. We have extensive experience working throughout the United States, India, Singapore, Hong Kong, Japan, United Arab Emirates, Saudi Arabia, Mexico, and Brazil, and others. Our principal place of business in Hawaii is our Honolulu office at 220 South King Street 9F, Honolulu, HI 96813, and the locations of our other offices can be found at our website (<https://www.nec.com/en/global/office/index.html>). NEC America's average number of employees in recent years has been approximately 500.

NEC appreciates the opportunity to apply to the County in accordance with Section 101D-304, in relation to the services as noted in the attached FY25 Consultant Checklist.

This application describes NEC's capabilities and proposed contributions to County projects, including the background of key staff:

- Chris Jackson, President and CEO, with over 30 years of relevant experience including 3 as a principal in this firm, and a BA in English & Sociology at the University of York, United Kingdom.
- Bart Beavers, Business Development Manager in the Honolulu Office, with 28 years of relevant experience including 4 as a principal in this firm, and a BS in Business Administration from Creighton University.
- Hideharu Suzuki, Vice President, Corporate Business Development, with 22 years of relevant experience including Wireless Network Solutions, Biometrics and Video Analytics, Transportation System, and Global Strategy with this firm and a BA in Economics from Keio University.

This team coordinates closely with primary technical personnel:

- Bill Carleton, Technology Director, with 21 years of relevant experience including 10 years with this firm and a BA in Public Relations from Virginia Tech.
- Sam Mita, System Engineer, with 29 years of relevant experience including 10 years with this firm and a BS in Physics from Aoyama Gakuin University.

- Andrew Edmiston, System Engineer, with 13 years of relevant experience including 7 years with this firm and an AS, Specialized Business Computer Specialist, from YTI Carrier Institute.
- Victor A. McNeal II, Project Manager of Technology Integration, with 19 years of relevant experience, including 3 with this firm and an MS in Information Systems Management from Ashford University.

We have numerous client, including the following five clients who are serving as our references, including the first two who were served by us in the last year:

1. Institute of Human Services: Ms. Connie Michel, Executive Director Phone: 808-447-2824
Coordinated Homeless Care ID (2023-2024): NEC together with our local partner, DataHouse developed mobile application for the ID management platform for IHS and other homeless care service providers.
2. Hawaii DOT: Mr. Ford Fuchigami, Airports Administrator, Phone: 808-721-5007
Hawaii Airport Thermal Screening Project (2019-2021): NEC installed thermal screening for elevated body temperature detection. NEC's technology is deployed at the Daniel K. Inouye International Airport (HNL), Kahului Airport (OGG), Lihue Airport (LIH), Ellison Onizuka Kona International Airport at Keahole (KOA) and Hilo International Airport (ITO).
3. Central Pacific Bank: Mr. Paul Yonamine, Chairman Emeritus, Phone: 808-544-3773
Data Analytics for Central Pacific Bank (2023-2024): NEC worked consultation for the Central Pacific Bank's data transformation and could digital data security.
4. University of Hawai'i at Manoa: Mr. Brennon T. Morioka, Dean, College of Engineering Phone 808-956-2291
Intersection Safety : Provided support regarding AI-based system to detect and prevent crashes at intersections utilizing sensor fusion—including LiDAR, RGB, and thermal cameras—to predict collision paths and enhance safety for all road users
5. TRUE Initiative: Ms. Nicole Cacal, Executive Director Phone: 646-764-2373
Long-Acting Injectable Tracking Application (2024-2025): NEC together with TRUE help developed an Assisted Community Order/Long-Acting Injectable tracking application for the Statewide Office of Homelessness and Housing Solutions platform, for use by homeless care service and mental health providers through a grant from the US Centers for Disease Control and Prevention (CDC).

We look forward to discussing our application with you and your team. Should you have any questions or comments, please contact Hideharu Suzuki via phone at (669) 340-8839 or via email at hideharu.suzuki@necam.com.

Thank you for the opportunity to present this application for your consideration.

Sincerely,

Hideharu Suzuki
Vice President, Corporate Business Development
NEC Corporation of America

Explain firm's individual project assignment, project management structure, project execution (work flow and responsibilities) and quality control process. In the event the spaces provided on this form are not sufficient for entries, or if you wish to furnish additional information, it may be inserted here or on separate sheets, with appropriate references.

<NEC Project Team and Solution Delivery>

NEC shares the State's vision for project components, implementation, and maintenance. NEC is a global pioneer in advanced sensing and biometrics, and a visionary leader in the inclusion of biometrics enhance the airline and airport customer experience. With Infrared Cameras Inc., a leader in thermal screening temperature camera systems, as our supplier of infrared cameras, NEC will provide a system that meets the RFP requirements while providing a compelling, user-friendly experience in the process. In addition, NEC will provide to the State software licensing and implementation information specific to the proposed equipment, software, and operations and maintenance.

NEC implements projects using a methodology based on the Project Management Body of Knowledge (PMBOK) from the Project Management Institute (PMI). The NEC Project Director and Program Manager will use the NEC methodology as a foundation to ensure a quality implementation of the project throughout all project phases.

NEC's advanced program management practices include our full-service PMO to support project teams at our offices in Rancho Cordova, California, and Washington, D.C. In addition, NEC maintains a Project Control Office (PCO) at its corporate headquarters in Irving, Texas. The PCO provides a variety of additional support to the PMO, ranging from personnel to peer reviews of plans.

The NEC PMO's charter is to ensure that each project brings together the tools required to plan, organize, direct, and control project execution and identify the resources required to achieve a successful project within budget and on schedule. The PMO's primary responsibility is to support the project team by coordinating all departments during implementation. The PMO assists the project management team to monitor the status of deliverables, provide guidance and direction in scheduling and logistics, and help resolve issues to ensure we meet commitments.

Our team uses a structured, planned, and understandable methodology to manage projects, while maintaining flexibility and accountability and balancing execution efficiency and adaptability to change. With well-defined roles, responsibilities, resources, and expectations, everyone is aware of the project's status. We strive to maintain consistent communication and understanding between all internal and external groups, including subcontractors. Projects following project management methodologies usually have a higher commitment to documentation, which improves response to normal issues and potential delays in the execution of the project schedule, thereby enhancing cycle time, facilitating project communication, and minimizing project deviations. This equates to improved decision-making for escalation, prioritization, and problem solving.

As of this date June 25th, 2025 the foregoing is a true statement of facts.
