Aloha: I'm writing to ask that the EMC please give a favorable recommendation the our Hawai'i County Council re Bill 83.

O'ahu & Maui have already passed similar legislation, so this would now align our island hopefully towards a statewide focus on the plastics problems we face. Introducing compostable & non-plastic reusable containers will help mitigate the single-use issue... the bill amendment serves to clarify important steps forward.

Please recommend passage of Bill 83 to our Hawai'i County Council - Mahalo!

Jeanne Wheeler - Pahoa, 96778
