---

Greetings,

I'd like to encourage your support of Bill 83 and increasing Hawaii's ability to manage refuse as well as protect our islands from non-reusable plastics.

As a local USCG Captain, I collect plastic garbage from our coastal waters on nearly every charter. I would love to tell my guests about how Hawaii is working hard to improve our use and management of plastics, preserving one of the most beautiful places on earth.

Please help move Hawaii County forward in the effort, and joining with fellow counties, to support a healthy environment.

Many thanks,  
Capt. Samantha Haney
