---

aloha - I am writing as a long-term Hawai'i Island resident, farmer, small business owner and taxpayer in opposition to bill 147.

Our hosted STVR has supported our family and our agricultural activity as well as offered employment, visitor spending and tax compliance for over a decade.

Bill 157 is vague, burdensome and discriminatory to property owners of Hawai'i Island.

Please protect resident operated farm stays

Maintain simple regulations and tax compliance

Support local jobs and small businesses

Help local families stay on the Big Island through their participation in the visitor industry.
