DEPARTMENT OF PUBLIC WORKS ENGINEERING DIVISION

Stockpiling Permit

INSTRUCTIONS TO THE APPLICANT

1. The applicant is responsible for obtaining all signatures. Approvals shall be obtained in the sequence one (1) to three (3). No work can begin until the application is signed by the Department of Public Works.
2. Work will be done in accordance with Chapter 10 – Erosion and Sedimentation Control, of the Hawai'i County Code, and as shown on the approved plans.
3. The Applicant must provide three (3) sets of stockpiling plans to the Department of Public Works. Plans must include erosion and sedimentation control measures with site specific details. Indicate the proposed stockpile location providing the proper setbacks from the property lines as required by Section 10-19. Indicate the height, slope, source, and type of material to be stockpiled. Show any easements and/or drainageways.
4. The Applicant should call the Historic Preservation Division (808-933-7653 Hawai'i Island) and the Planning Department (808-961-8288 Hawai'i Island) for a list of their requirements.
5. The issued permit will expire and become void one (1) year after the date of issuance.

To: All Persons with Construction Activities Disturbing One (1) or More Acres of Total Land Area

From: Denis R. Lau, P.E., Chief
Clean Water Branch

Subject: **National Pollutant Discharge Elimination System (NPDES) Permit Requirements for Your Construction Activity**

You need to obtain coverage under an NPDES permit from the Department of Health (DOH), Clean Water Branch (CWB) for your construction activities, including clearing, grading, and excavation, that result in the disturbance of one (1) or more acres of total land area. The total land area includes a contiguous area where multiple separate and distinct construction activities may be taking place at different times on different schedules under a larger common plan of development or sale. **An NPDES permit authorizing discharges of storm water associated with your construction activity to State waters is required before the commencement of the construction activities.**

The CWB requires that a Notice of Intent (NOI) to be covered by the NPDES general permit for your construction activities be submitted at least 30 days before the commencement of your construction activities. The NOI forms may be picked up at our office or downloaded from our website at <http://www.hawaii.gov/health/environmental/water/cleanwater/forms/genl-index.html>.

You may be required to apply for an individual NPDES permit if there is any type of activity in which wastewater (i.e., concrete truck wash water, etc.) is discharged from your project into State waters and/or coverage under the NPDES general permit(s) is not permissible. An application for the NPDES permit is to be submitted at least 180 days before the commencement of your construction activities. The NPDES application forms may also be picked up at our office or downloaded from our website at <http://www.hawaii.gov/health/environmental/water/cleanwater/forms/indiv-index.html>.

Hawaii Administrative Rules, Section 11-55-38, also requires you to either submit a copy of the new NOI or NPDES permit application to the State Department of Land and Natural Resources, State Historic Preservation Division (SHPD) or demonstrate to the satisfaction of the DOH that the project, activity, or site covered by the NOI or application has been or is being reviewed by SHPD. Please submit a copy of your request for review by SHPD or SHPD's determination letter for your project.

If you have any questions, please contact the Engineering Section of the CWB at (808) 586-4309.

**Information for Review Submission of
Hawai'i County Grading, Grubbing & Stockpiling Permits**

To improve and expedite the State Historic Preservation Division's review of Department of Public Works grubbing, grading and stockpiling permits, we request that the following information be submitted with your permit application:

1. A site map showing the area of proposed land-altering within the affected TMK parcel(s)
2. Location map showing known historic sites and approved buffer zones in relation to the proposed project area
3. Description of current vegetation cover and condition of the project area; description of any structures, roads or other features within the project area (photographs are very helpful)
4. Copies of previously approved permits and/or and prior SHPD review and comment letters that pertain to the property
5. Summary of land use history if known (i.e., former cane cultivation)
6. Construction dates of buildings within the project area, if known
7. Mailing address and phone number of the contact person to whom we will send our review letter

If you have any questions, please call 933-7653 or 933-7650

SHPD does not sign the permit; we will send you a review letter which you will attach to the permit application. Do not send us your original permit application form; send us a copy so that we may keep it on file at SHPD.

Pursuant to the Hawaii Revised Statutes, Chapter 6E-11(c) "It shall be unlawful for any person to take, appropriate, excavate, injure, destroy or alter any historic property or burial site during the course of land development or land alteration activities to which §6E-42 applies, without obtaining the required approval."
