Subject: Charter amendments

Aloha Commissioners,

I oppose 106/CA-18 which would allow for 4 year council terms

I support 109 for additional public meetings which is very important to maintain democracy at our County level

I highly support CA-14 to create legislative county auditor office that is independent. I am very concerned about the waste, bidding process and unjustified overruns in the county. This will make our government more ethical and financially efficient.

I also highly support honoring the people's initiative to make 2 % for land a Charter Amendment and to not dilute or change the people's mandate for a full 2 %

Mahalo for your effort and consideration of these issues,

Diane Ware
