

January 15, 2010

As a citizen of the Big Island, I am requesting that the 2% Land Fund, voted for by the people of this island, be reinstated.

I ask that this money be removed from access by the county council as the majority of them seem to ignore the voice of the people on this topic. We voted for it by a 63% majority.

You are our last resort to have public lands preserved which is currently being eyed by special interests for their own personal gain.

The trend of greed having the last word has to be silenced whenever possible.
