

## **LAND FUND**

To Charter Commission members:

Please vote in favor of placing the 2% Land Preservation Fund on the ballot as a **2%** fund. Please support matching funds donations and use of interest bearing holding accounts to maximize this fund's potential. Please have this fund used solely for land acquisition for preservation purposes, not as an alternative to maintenance or park development budget planning. If this fund is used in connection with other funding or repayment mechanisms please allow this only in cases that support the purpose of the fund itself and ensure that land preservation funds are maintained, reported, and tracked separately and not in combination with accounting for other mechanisms.

Thank you,  
Robin Wright, (Friends of Puna's Future member)
