

LAND FUND

February 11, 2010

Dear Commissioners Haitsuka, Kaulukukui, Kawauchi, Kealoha, and Osborne,

Thank you for agreeing to reinstate the 2% into the proposed charter amendment to give the people the opportunity to vote again on this important matter. As Sammie Stanbro testified so eloquently on January 21, 2010, a survey was undertaken by the Trust for Public Land in 2005 at the cost of thousands of dollars, that showed that the people of this island want to commit 2% of property tax revenues for land acquisition, not 1/2% or 1%. That is why we, the Save Our Lands Citizens' Committee, undertook the "2% for Land" initiative campaign in 2006, which 63% of the voters approved in the general election. Thank you for honoring the thousands of voters who supported this initiative and please ask your fellow commissioners to do the same.

Mahalo,

Karen Clarkson
Save our Lands Citizens Committee
Aloha,

Karen Clarkson
