Land Fund

Aloha,

I am one of the 63% of Hawaii residents that voted for the 2% Land Fund. This was an important step in helping preserve the land of this county for now, and for the future.

It is most important we keep this Fund alive and at 2%. It is also of consequence that we are able to take advantage of the lower land prices to purchase land parcels that may enhance the beauty of this island with more open spaces.

At a time when many people are only thinking of the present, it is imperative that we also think about our future.

Mahalo, Cynthia Gillette-Wenner
