

## SAVE 2% FOR OUR LANDS

Aloha, Please reinstate the 2% we voters agreed was necessary to secure land that would be held in perpetuity for the public- what they call in England, the commons-

Why would anyone think tourists want to come here if we make the island full of buildings like the mainland? We have hotels- so many are not full, we need to keep Hawaii beautiful. We need to keep the land and parks clean, provide more trash cans, and like Maui county they have recycling bins right next to their trash bins at all the parks. If you dont have enough funds or workers to take care of the recycling, you could ask schools if they want to do that for a fundraiser- But we need beautiful places the public can enjoy. Beauty is also a way to increase calm and therefor decrease anger and violence.

aloha,

Jennifer Ho
