March 11, 2019

Senator Rosalyn H. Baker, Chair  
Senator Stanley Chang, Vice Chair  
Committee on Commerce, Consumer Protection, and Health

Dear Chair Baker, Vice Chair Chang, and Committee Members:

**RE: HB 330, HD1 Relating to Suicide Prevention**

HB 330, HD1 sent me to Google to better understand the need for youth suicide early intervention, prevention, and education programs. The statistics are enough to explain the importance of this bill.

Suicide deaths in Hawai'i County, according to our Hawai'i State Department of Health, average 20.4 deaths per 100,000 population, compared to a national average of about 13 deaths per 100,000. When it comes to youth age 15-19, the number is even higher—26.4 per 100,000; and for young adults aged 20-24, higher still—37.9 per 100,000.

My understanding is that statistics for Kauai and Maui are similarly disturbing.

Every one of these deaths is preventable, and if we have the expertise to offer programs that can reach these young people and suggest different paths forward for them, it seems we owe it to them, and to their families, friends, and loved ones, to make the effort. In fact, we owe it to ourselves as a just and caring society.

I hope you will act favorably on HB 330, HD1. I also note that the Senate companion bill, SB 226, was amended in the Senate to include Maui in addition to Hawai'i County and Kauai, and we think that is certainly appropriate.

Respectfully Submitted,

Harry Kim  
MAYOR
