ACCEPTANCE FORM

FOR

EXCEPTIONAL TREE STATUS

I, Michael Wilson, in my capacity as Chairperson of the Board of Land and Natural Resources, recognize that a Chinese Weeping Banyan tree growing on property under the jurisdiction of the Department of Land and Natural Resources situated between Kilauea Avenue and the Mohouli Fish Pond, Hilo, Hawaii, is exceptional under the criteria of the Exceptional Tree Law (HRS Chapter 58), and the Department of Land and Natural Resources, State of Hawaii, agrees to allow it to be designated as such upon the list of Exceptional Trees of the County of Hawaii which is filed with the County Arborist Committee and Department of Planning. The Department of Land & Natural Resources agrees that it will not destroy this tree or affect its immediate surroundings in such a way that its health and vigor is negatively impacted without first consulting the County Arborist Advisory Committee through the Hawaii County Planning Department, so long as the property involved is under the jurisdiction of the Department of Land and Natural Resources.

The Department of Land and Natural Resources understands that the County of Hawaii assumes no liability with reference to this tree and will not be responsible for its care and maintenance.

In the event that the property ownership is transferred, the Department of Land and Natural Resources will notify the Advisory Arborist Committee within thirty (30) days.

Signed:

Michael D. Wilson
