Message: Aloha, I have read the General Plan and I have to say that Waipi'o Valley and even the Kukuiahae community already deal with so much tourist traffic that it would only do more harm than good if a scenic lookout were to be created on the rim of the valley. That opens up so much more problems involving possible littering and even other crimes that could be committed in that area and it will disrupt the natural resources that currently lie there. In my opinion, it's best to leave the area alone and instead find ways to deter so much traffic. There have already been so much issues with tourist and local traffic, this plan would only add fuel to the fire. Let's mālama our 'āina, not destroy it. Mahalo for your time and consideration.
