Governance of Risk & Resilience

Making decisions that ensure public health and safety with future challenges in mind.

How strong is our...

Local leadership

This is access to government officials who listen carefully to understand concerns, ideas, and perspectives and use this information to make decisions.

Policies and investments

This looks like uplifting communities with chance and choice, and equitable distribution of resources.

Effectiveness of coordination & collaboration

This is dismantling silos and getting departments as well as all levels of government to work together to solve problems and complete projects.
