Subject: No to Big I Gen plan 2045
Date: Monday, February 24, 2025 8:47:36 PM

Please Commissioners!

The Big Island General plan is not good for the people here. It must not go through the way it is designed. I live in lower Puna since 2010. I own a small piece of land here and I intend to live out my life here. I'm very concerned about the future of this island.

Some of my concerns are that the word "stakeholder" means anyone in the entire world can have input on this plan. I would like it changed to "local communities" such as a big island, farmers businesses, renters and owners. We will be very much affected by the activities and the general plan and the more I find out about it the more concerned I am.

The OSCER department in the plan will Noel void all public input and move decisions to unelected officials. This is horrific and I protest. This department should not be created in any way shape. This is on page 188, 40.8.

Please hear the people. Many of my friends who are not writing letters feel the same way as I do.
