Subject: Vote "No" on Hawaii GP 2045
Date: Thursday, March 6, 2025 5:14:31 PM

Aloha,

Please vote no on the Hawaii GP 2045. The following are a few concerns to consider;

1. Homeowner is not mentioned.

Please recommend Stakeholder change to the following: "Local Communities". Local Communities are local Big Island farmers, homeowners, renters, organizations, businesses, and individuals who live on Big Island or have property on Big Island that will be personally affected by projects, decisions, or activities in the general plan. Effective local community engagement and management are crucial for the success and sustainability of any initiative, as it helps ensure that diverse perspectives and interests are considered.

2. Improve our current infrastructure. Our current electric infrastructure can not support the model in this plan. We rely on bio fuels and they should not be diminished. It would be too costly, in fact unattainable, to promote a " green agenda".

There is a huge part of the plan dedicated to "Climate Change". However, why do most experts state there is NO climate danger? [Climate Experts Speak Out Against Climate Danger Click Here!](#)

3. The island needs sustainable development that prioritizes the well-being of residents and the conservation of the island's resources.

Mahalo for your attention,

Dan and Shannon Fisher
