Subject: Where are the amendment a

Bill 194 was amended Cdp . However this is the only thing written despite it being removed ? You don't tell us where parks are staph.

There are no 3 parks in HA on

6&7 road

E road same place

And another one in area 3. That's the same stupidity fern acres wrote . Third one next to that one . ?

Neither are in FA or orchidland .

None of those are on any Orchidland connectors which is D 1/2 to 40th.

This is months work of paying ,paying , mapping , copying 400 petitions and presenting to county council . Did you forget that's deleted ? Why is the only Cdp online not amended ? It's not 2005 it a 2008.

Where's our money ?no mention in Cdp

That you illegally mapped on district 3 &4. But not 5.

You still have to pay us for illegal road since 1999. Retroactive since 1996.

Plus damages

Rental fee for use , and open every road through HPP and Orchidland attorneys said no public mapping by other districts and subdivisions is allowed . You don't let Hpp turn left at Makuu and charge us 12000 cars twice a day , all day , we pay for .

Where are the amendments ? How can they pass anything if nobody was ever allowed to participate?

What amendments you five did that changes the Cdp Everytime ?

There is 5.5 million community center and all lots surrounding it on 8.

But the only copy published has the same 2005 plan .
