Subject: COR-15-098228 - Cdp and general plan

We categorically reject all aspects of the general plan, Cdp , and loss of civil , economic , social liberties and loss of all agricultural and conservation rights . It's negative repercussions of all emergency response .

Agricultural is the prime objective of district 5 so You removed all rights to farm our largest 3 acre lots .

Being in 19 years non compliance and no payment shouldn't be HA sole purpose to Eminent domain 8000 peoples land with it compensation .

Dpw violated all easement compliance of Moho . You have not compensated FTR but they did fail all Covenants and code .

FTR should not go to only HPP , & volcano The urbanization expansion is ridiculous .  
leaving out of Keaau , Kurtistown , mountainview to public input for shipman is not community input . ,  
Cdp as written is rejected :

Since 1989 general plan it is proved that it was falsely written to benefit only white people from other states . This has cost us 250 million in Damages .  
Its an excuse of land grabbing for foreign developers .

As reapportionment and redistricting continued ; the Cdp despite not being in our district is absurd .  
Not being in our districts is non representative

Denying HA ; the largest pure agricultural subdivision no public or private input .the County and Dpw ,  
council missed 4000 meetings .  
We reject any amendments , plans until paid and bought out as original law stated .  
Changing of the original  
Plan from pdcp is only for developers and lobbyists .

General plan gives 4 transfer stations to 200 People . Removed all public used roads in Commercial zoning and it's precept is only for eminent domain .  
Since Larry brown and Dpw violated 19  
Years of covenants and  
Broke the law this is a serious violation of Federally mandated community input

We reject the general plan as racist and ethnocentric , and rewritten by private lobbyists . .

None of county council knows enough evidence to truly be objective in passing it .

All landowners of Hawaiian Acres .  
HACA  
HARC  
Sincerely
