Subject: Who is lying about the data and surveys of the general fake plan ?

Who removed Hawaiian acres corporate documents from Planning department ?

Master plan is state law and amendment since 1998 being violated Violating hawiiian acres 29 Years must be paid not allowed any highways will be felony assault by Hpp and Orchidland .
We be signing over their roads and land as plan ditched county . Forgot you redistricted and violated reportionment makes the plan invalid.

Who said Illagan

Can make up a new fake report without any data or signatures removing maps of Hpp and orchidland and use 16 maps

Of Hawaiian acres killing only one subdivisions historical and pure agricultural is felony assault . He is not writing w new plan and we will seek damages over Moho first . He cost them 200 Million in damages .

all upper Puna voted 16000 for Hpp and Orchidland and only new subdivisions to be mapped for roads is violation of legality Illgan didn't write a report 16 years in the making on ad hoc NEW comittee is forgery and insult to Any intelligence . Failure to comply 29 Years now we will be reducing half trafic off upper Puna through HPP . He forged data didn't drive a single road and can't be ad hoc for upper Puna district 5.
Having the data we will sue him

Hawiiian acres gave you 16000

Surveys, Petitions and the death by Moho road will be paid one way or another . Hpp is minority and stealing our polling place and 200 million funding is felonious . the plan it's idiotic geocentric and non compliant every way since 1998.
