Subject: Agenda item VII-1 considerations
Date: Tuesday, September 27, 2022 10:13:56 AM

Aloha,

I support the hiring of a community facilitator to prepare our Island stakeholders in taking advantage of EPA recycling infrastructure funding. I also support the hiring of a grant writer to take advantage of funding opportunities. We are already a community where diverse groups - business, non-profits, education, Native Hawaiian - support reducing solid waste and improving access to recycling, composting, and reuse. Please enable Zero Waste Hawaii Island to become fully equipped with recourses and information to take advantage of upcoming unprecedented access to federal funding in support of recycling and composting infrastructure development on Hawaii Island.

Mahalo for your time,
Krista Donaldson
