Subject: Agenda Item VII #1 - Malama One / Environmental Management Commission
Date: Tuesday, January 28, 2025 1:29:44 PM

Aloha EMC,
I've read a lot about plastic recycling over the years... none of it has been good.

Malama One brings up far more questions that need answers & most county decision-makers are not qualified scientists.

Listening to sales reps without all of the pertinent info is like deciding by throwing a dart at the board.

One thing we do know; plastic is playing its part in killing us & the planet.

I don't think this is the right business model for Hawai'i Island.

Mahalo!
